DIRECTOR OF CENTRAL INTELLIGENCE
Intelligence Information Handling Committee
WASHINGTON, DC 20505

27 JUN 1984

LOGGED

IHC/MM 84-57
26 June 1984

MEMORANDUM FOR: Mr. Robert Wallace
Federal Bureau of Investigation
Technical Services Division, Engineering Section

25X1 FROM: 
Chairman, Intelligence Information Handling Committee

SUBJECT: Letter of Appreciation

1. I thank you for the excellent support you have provided the IHC as the FBI's alternate member to this Committee. Since your appointment, you have fully cooperated in helping to identify and resolve information handling issues at the Community level. You have provided a unique perspective to the IHC, in that on many issues which had been discussed, but which would not have impacted on the FBI, you voiced comments and observations which focused attention on the real issues and which led to eventual resolution. You have also been the main point of contact between the FBI and the IHC. You have always put us in contact with the proper personnel to discuss the varied subjects of interest to the IHC. The current progress on the FBI's effort to revise its electrical distribution to conform to the standard Community format can be attributed to your initial support.

2. The IHC and I will miss you and your cooperative spirit to solving Community problems. I wish you the very best on your new assignment and hope that you will keep in touch.

25X1 cc: Ronald W. Witzel
Federal Bureau of Investigation
Chief, Engineering Section, Technical
Services Division
